Review and Decisions on the Future of Working Groups (2.08-3.0)

*The Board decided:*

1. The three implementation WGs and the three research & development WGs will be renewed as full working groups.
2. The sub-groups who requested no change in status will be renewed.
3. The Working groups and sub-groups renewed at this stage will be subject to re-evaluation in 3-years (2011);
4. The sub-group on infection control will remain as a sub-group of the TB-HIV Working Group but strengthen linkages with other relevant working groups and sub-groups. Working Groups and sub-groups are requested to note this decision and take appropriate action.
5. The sub-group on infection control may be re-evaluated in 3 years (2011) for consideration as a full working group.
6. The sub-group on laboratory strengthening is to be upgraded to a full WG (Global Laboratory Initiative Working Group)
7. The ACSM WG will not be renewed as a full Working Group
8. Requested that the Chair of the former ACSM Working Group work with the Secretariat to establish an Advocacy Advisory Committee be formed to advise the Board and Secretariat.
9. A network of the wider advocacy community be established to facilitate coordination and information exchange around the annual advocacy plan.
10. To request the Secretariat to continue to coordinate activities of the individual working groups at country level, to prevent overburdening of local staff.

15th Stop TB Partnership Coordinating Board Meeting
28-29 October 2008 - Bagamoyo, Tanzania
2nd line Drugs Management and Supply (2.08-10.0)

The Board:

- Subject to funding availability, supported the appropriate increases in staff levels (over and above current normative levels in the GDF/GLC secretariats) in line with the objectives of the April 2009 meeting.

- Called for an assessment of public and private market purchases of SLDs in the high burden countries and to purchase QA SLD for all projects approved by, and in good standing with, the GLC.

- Called for a strategy to increase demand for quality-assured 2nd-line TB drugs (as defined by standards and requirements of the WHO Pre-Qualification Project, or those of Stringent National Drug Regulatory Authorities), such as is outlined in the Strategic Options paper.

- Recommended a letter to the WHO Director General on behalf of the Board calling for additional emphasis to be placed on prequalification.

- Supported an appeal to all donors that they provide funding only for quality-assured 2nd-line drugs, as defined by standards and requirements of the WHO Pre-Qualification Project or those with stringent National Drug Regulatory authorities.

- Supported a high level appeal to high MDR-TB-burden country leaders to take concrete steps towards stricter regulation of the use of second-line drugs in their public and, especially, private sector markets.
