POST-2015 TB STRATEGY AT A GLANCE

VISION: A world free of TB:
Zero deaths, disease and suffering due to TB

GOAL: End the Global TB Epidemic

TARGETS FOR 2035: 95% reduction in TB deaths (compared with 2015)
Less than 10 cases per 100,000 population

MILESTONES FOR 2025: 75% reduction in TB deaths (compared with 2015);
TB cases reduced to less than 50 per 100,000 population
No affected families face catastrophic costs due to TB

PRINCIPLES:
- Government stewardship and accountability, with monitoring and evaluation
- Strong coalition with civil society and communities
- Protection and promotion of human rights, ethics and equity
- Adaptation of the strategy and targets at country level, with global collaboration

PILLARS AND COMPONENTS

1. HIGH-QUALITY, INTEGRATED TB CARE AND PREVENTION
   A. Early diagnosis of TB including universal drug susceptibility testing;
      systematic screening of contacts and high-risk groups
   B. Treatment of all people with TB including drug-resistant TB, with patient-centred support
   C. Collaborative TB/HIV activities and management of co-morbidities
   D. Preventive treatment of people at high-risk and vaccination for TB

2. BOLD POLICIES AND SUPPORTIVE SYSTEMS
   A. Political commitment with adequate resources for TB care and prevention
   B. Engagement of communities, civil society organizations, and public and private care providers
   C. Universal Health Coverage and other policy and regulatory frameworks for case notification, vital registration, drug quality and rational use, and infection control
   D. Social protection, poverty alleviation and actions on other TB determinants

3. INTENSIFIED RESEARCH AND INNOVATION
   A. Discovery, development and rapid uptake of new tools, interventions, and strategies
   B. Research to optimize implementation and impact and promote innovations
