Overview of Stop TB work with the Global Fund

Stop TB Coordinating Board Meeting
19-20 Sept 2016, New York
Outline

• Global level
  • Support to the GF Replenishment
  • Engagement in development of the GF Strategy 2017-2022, KPI and target setting, country allocations, catalytic funding, the new differentiation approach
  • TB specific platforms: TB Situation Room, TB Core Group for GF
  • The GF Implementation Through Partnership (ITP) initiative, Committee / advisory bodies / task forces

• Work at country level
  • Offering technical support in Communities, Rights & Gender (CRG), Procurement & Supply Management (PSM) and case detection
  • High level missions
  • Support to regional initiatives
Global Fund Strategy, KPIs and Targets

- **Strategy (2017-2022)**
  - Inputs provided
  - Global Plan regional consultations and GF Strategy Partners Forum
  - GF Board in April 2016 approved Strategy

- **KPI**
  - Inputs provided on strategic KPIs and operational measurement framework indicators
  - Work is ongoing

- **Target setting**
  - Work has just started now
  - Stop TB and GF jointly organized with WHO participation a workshop for key countries for modelling cost & impact
Global Fund Replenishment

- Development of the Investment Case and alignment with the Global Plan

- Advocacy efforts – Stop TB Partnership Secretariat, communities, global TB Caucus and parliamentarians

- Stop TB Participation in replenishment meetings - Tokyo and Montreal
Country allocations

- TB disease formula revised and agreed

- Simulations done to check for any major unexpected consequences for revised formula

- Challenges still remain:
  - impact of qualitative adjustments
  - total funding available for allocation
  - the manner in which the allocations will be communicated, understood and used by countries
Catalytic Funding

• Work in progress
• Very difficult and time consuming process
• TB proposal has 4 major components
  • Funds to countries ("matching funds") for finding missing TB cases (all forms TB and DR-TB)
  • Global strategic initiative to support countries in finding missing cases
  • Multi-country initiatives in TB
  • Cross cutting investments – Data, CRG, PSM
Absorption of funds

• Situation Room discussions
• ITP initiative
• Individual country actions, e.g.
  • Pakistan
  • Indonesia
  • Nigeria
  • Mozambique
• Concerns remain about countries that are at risk of losing allocated funds at the end of 2017
Important platforms for Stop TB work on Global Fund

• Situation Room

• Core group calls

• Stop TB participation in the Global Fund Board, Committees/Advisory Groups/Task Forces
Technical support to countries....1

- Global Fund Stop TB Partnership agreement
  - Technical support provided to 73 countries
    - In 31 countries community and civil society organizations received financial resources to support engagement in country dialogue
    - 33 TB or TB/HIV Concept Notes reviewed
    - In 7 countries supported development of components of NSPs
    - 9 countries received support for community participation in TB program reviews
    - 18 countries were supported through TB REACH on innovative case detection plans in concept notes
    - In 23 countries GDF provided technical support for PSM issues in CNs, NSPs and monitoring missions
Technical support to countries….2

• First ever Gender Assessment Tool for TB
  • Collaboration with UNAIDS
  • Two workshops with community advocates
  • Piloting and assessments in 4 countries
• Round 7 grants of CFCS focuses on strengthening national civil society and community networks that are accountable to communities and who engage as equal partners in Global Fund processes
  • 10 CFCS grantees in 10 countries are implementing
• Pilot PSM workshop for civils society held (April 2016)
• 2 workshops planned for sub-national data, impact modelling and costing
Technical support to countries…3

- 2 workshops to build capacity of TB reps on CCMs
  - TB specific e-module for CCMs in development in collaboration with International HIV/AIDS Alliances
- First meeting of key populations in TB in Nov 2015
  - 7 KP guides developed; 2 more in development
- 9 regional workshops with key regional Civil Society partners
- More than 200 civil society and community members trained on the integration of community, rights and gender in the context of TB NSPs and CN development
- First ever workshop on TB, Human Rights and the Law held
High Level Missions and engagements

- Indonesia
  - Resulted in re-focus of the GF grant and increase in absorption of funds
  - Policy change to move towards Xpert as an initial test and universal DST
- Pakistan
  - Re-focus of the GF grant for scale up
  - New PR in the private sector
- Nigeria
  - Under the leadership of Her Excellency, wife of the President of Nigeria
Support to Regional initiatives

- TB and mining
  - STP is part of the RCM
- TB REP
  - STP partnering with PAS and WHO-EURO
- IGAD
  - Support for proposal development
- Cities initiative (Eastern Europe)
  - Support for proposal development
  - Support in implementation
In conclusion

• Engagement with Global Fund on a wide range of issues.

• Small team in STP secretariat, but we rely on the inputs of a larger group of Partners outside

• Thanks to all the SR members, Core Group participants and Partners
Looking forward…1

More work will be done on

- Finalizing targets
- New allocations and its impact
- Catalytic Funding
- Continuation of CRG work
- Data: costing, impact assessment, sub-national data, investment for impact
- Differentiated approach in country support
- TB REACH and Global Fund joint work
- Transition from GF grants
Looking forward….2

Emerging priorities

• Coordinated support and advice to countries on scale up of shorter MDR-TB regimen

• Monitoring of progress on Global Fund KPIs on the numbers treated and treatment success

• Reporting and monitoring of Stop TB Partnership’s KPIs on Global Fund related work
Thank you
