Preamble

We members of the **Uganda Stop TB Partnership** (USTP) do undertake to form ourselves into an Association to mobilize untapped human and material resources and to jointly contribute to the fight against tuberculosis. The Association shall form a coalition of partners agreeing on the national strategy for TB control that is spearheaded by the Ministry of Health. Through this coalition, we shall enhance effectiveness and efficiency and influence public policies for sustainable development and better health.

**Whereas:** Our ultimate goal is to create and sustain a national response to the problem of tuberculosis, reduce human suffering attributable to TB and reduce its spread in the general population.

**Aware:** That TB affects the most economically productive age group resulting into suffering and loss of workers’ time, disrupting work flow, reducing productivity and increasing economic burden both on families and the health system.

**Appreciating:** That better coordination of stakeholders leads to increased momentum to upgrade TB control and harnessing new inputs from non-traditional partners.

Do hereby endorse this Constitution as the document that will guide all our undertakings and regulate the activities of the members individually and collectively as an Association for the purpose to be governed by this Constitution.
