Ensuring an uninterrupted supply of
quality-assured, affordable anti-TB drugs
and diagnostics to population in need.

The benefits of GDF quality-assured products

As per its Quality Assurance policy, GDF provides quality-assured products to countries and programmes which enable health care providers to treat patient according to the latest WHO treatment guidelines. The current catalogue reflects price ranges for products with primary, secondary and tertiary allocations only and as per the competitive bidding outcomes. Prices provided for products from auxiliary suppliers have not been included in the below list. The use of Fixed Dose Combination (FDC) tablets greatly contributes to rational use and assists in effective implementation and expansion of the STOP TB Strategy. Intake of FDC tablets reduces the number of pills a patient needs to consume, while avoiding mono-therapy and thereby reduce the risks of developing Multidrug-Resistant TB (MDR-TB). Addition of new anti-TB medicines to the GDF catalogue enables countries to benefit from rapid access to and use of donation programme for these agents. Innovative packaging like the GDF patient kits further contributes to patient adherence and facilitates in-country drug management practices.

FIRST LINE ANTI-TUBERCULOSIS MEDICINES

Oral solid dosage forms: Fixed Dose Combinations (FDC) for adults

Product	Description	Packaging	Price EXW (USD)*
4FDC/RHZE 150/75/400/275	Rifampicin 150 mg/Isoniazid 75 mg/Pyrazinamide 400 mg/Ethambutol 275 mg film-coated tablets	28 tablets * 24 blisters	39.40 - 40.71
3FDC/RHE 150/75/275	Rifampicin 150 mg/Isoniazid 75 mg/Ethambutol 275 mg film-coated tablets	28 tablets * 24 blisters	30.67 - 33.21

Safety Box for used syringes	Safety box for used syringes and needles, 5 Lt.	Box	0.43 - 0.65

*The Product Catalogue displays the highest and lowest product prices offered by GDF's principal suppliers. Prices are valid until 31 March 2017 for all medicines and medical devices. For the majority of products, GDF maintains long-term agreements with multiple suppliers, with target market share allocations depending on supplier status. Allocations and supplier status may vary depending on performance, product status and other criteria monitored by GDF and its Procurement Agent. Volume discounts are available for some products. GDF and its Procurement Agent also hold contracts with back-up suppliers and occasionally, products from these suppliers are offered by GDF. Prices listed above indicate the base cost of the product and do not include costs for procurement agent fees, quality control, pre-shipment inspection, transport (air freight or sea freight) or insurance. For budget purposes, GDF clients are strongly advised to utilise the highest product prices displayed in the Catalogue. For more details, please contact GDF at gdf@stoptb.org.
