40th Union World Conference on Lung Health

**Cancún Center, Conventions & Exhibitions
Cancun, Mexico**

3 to 7 December 2009

POVERTY AND LUNG HEALTH / POBREZA Y SALUD RESPIRATORIA / PAUVRETÉ ET SANTÉ RESPIRATOIRE

Welcome Address

Dear Colleagues,

We are pleased to inform you that the 40th Union World Conference on Lung Health, organised by the International Union Against Tuberculosis and Lung Disease, will be hosted in Cancún, Mexico, from 3 to 7 December 2009. Founded in 1994, the Cancún Centre is located in the heart of the hotel zone, about 20 minutes from the International Airport. There are a wide range of direct flights from many major cities.

The theme of the conference is "Poverty and lung health". This theme is highly relevant for our colleagues who have to deal with the burden of HIV/AIDS, tuberculosis, asthma, pneumonia, tobacco related and all other lung diseases as well as the health consequences of air pollution. The important medical, social and economic consequences of lung health in high-burden countries will also be discussed.

The World Conference offers an ideal venue for debates on these challenges and thus contributes to better understanding, ensuring more effective, efficient and sustainable services, interventions and programmes. A parallel session in Spanish will also be held each day of the conference for our Spanish-speaking delegates.

We hope you will also take some time to enjoy the Mayan culture, civilisation, archaeology and art.

We look forward to welcoming you in Cancún,
Yours sincerely,

Dr Nils Billo, MD, MPH
Executive Director

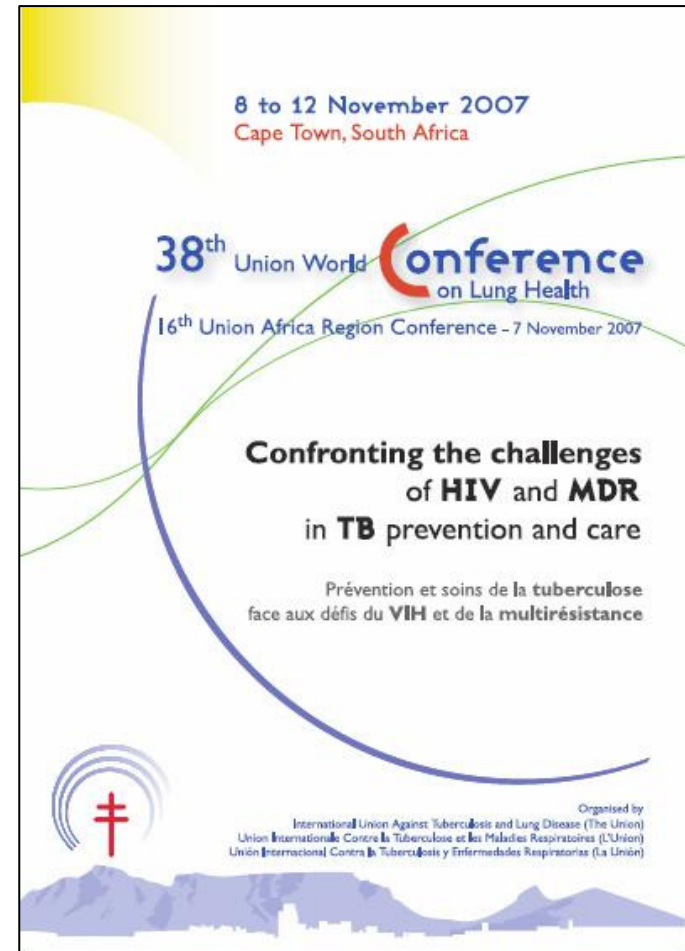

Dr Michael Kimerling, MD, MPH
Chair, Coordinating Committee of
Scientific Activities
