

## Improving Access to Appropriate Childhood TB Medicines *Luncheon Symposium*

December 3, 2015

11:45-14:00

Lunch provided

The Table Bay Hotel  
The Ballroom  
Cape Town, South Africa

We invite you to attend our luncheon symposium in Cape Town, South Africa. The session will address opportunities and challenges related to the introduction of improved TB treatments for children. It will bring together experts in child TB and child health to galvanize the action needed to improve treatment and child survival from TB.

Speakers include representatives from TB Alliance, WHO, UNITAID, UNICEF, Global Fund, Stop TB Partnership's Global Drug Facility, National TB Program managers, and others.

### Other Agenda highlights:

- State of pediatric TB treatment
- Discussion of strategies to raise the profile of TB within maternal and child health agenda
- Out of the shadows: Finding and treating children in need
