

DOTS Expansion Working Group meeting

**Van Gogh - room, Grand Palais
1, Boulevard des Cités Unies, 59777 Euralille
Lille, France**

Tuesday 25 October 2011

Purpose of the DEWG meeting

- To present and discuss with the 22 TB HBCs and the Partners the latest global developments in TB Control, among which: global progress on PPM and ways to accelerate PPM scale up in countries including the outcome of the 7th PPM subgroup meeting; the contributions of TBREACH to Intensified Case Finding; the current status of the early implementation of Xpert MTB/RIF; and, the revised TB Case and Outcome definitions related to the use of rapid diagnostic tools.
- The INAT planning tool to support the appropriate uptake of new (and WHO endorsed) technologies/tools
