Community, Poverty and Advocacy Sub-group

’MAYOWA JOEL

Annual Meeting, Lille, France
New Diagnostics Working Group
Stop TB Partnership
26 October 2011
Background

• Improved understanding of Community issues and engagement of Community Representatives in the Working Group

• Commitment of the leadership of the Working Group

• Review of the structure of the Working Group in 2010

• Core Group Meeting in Berlin 2010 and subsequent discussion in this regard

• New structure of the Working Group – CPA as one of the cross cutting sub-groups

• Mayowa Joel and Russell Dacombe as Coordinator and Dep. Coordinator respectively
Purpose of the Sub-group

To work with other stakeholders to highlight the issues of community and poverty in TB diagnostics; support ways of improving community engagement and advocate for better technologies and appropriate policies on TB diagnostics.
Goals

• Increase awareness on issues of the community and poverty in TB diagnostics;
• Advocate for more resources for research on TB diagnostic tools;
• Increase awareness and demand for better TB diagnostic tools;
• Advocate for appropriate policies on TB diagnostics;
• Promote capacity building for affected communities.
Projects

• **Ongoing Project:** *Review of Community perspective on policies, tools and services of TB diagnostics in three countries* – Nigeria; Kenya and Malawi

• **Proposed Project for 2012:** *Develop a Communication and Advocacy Tool on TB Diagnostics, including innovative and proactive ways of involving the community in the roll-out of new technologies.*
Next Steps

- Draft Terms of Reference to be shared for input;
- Membership mobilization and registration – open to all stakeholders;
- Work with the Secretariat of the WG and the Partnership to update the content on the webpage of the Sub-group
- Collaborate with other Sub-groups; WGs and organizations with similar purpose
Thank you!
