

GLOBAL FUND ENGAGEMENT STRATEGY – TOWARDS ACHIEVEMENT OF THE GLOBAL PLAN TO STOP TB AND MDGs           IS THIS SESSION FOR:         INFORMATION X         DISCUSSION         DECISION           BACKGROUND (INCLUDING PROBLEM STATEMENT):         In line with the operational Strategy, the Global Fund represents a major focus of the Partnership Secretariat's advocacy activities, aiming at supporting Global Fund financing and grant management policies through partner coordination and strengthened community advocate voices.           Over the last decade, the Global Fund has become the single largest source of external financing for TB detection and treatment worldwide. The priorities of the Partnership Secretariat in its Global Fund engagement are therefore that the Global Fund is endowed with the largest possible commitment of resources; that as much funding as possible from the Global Fund flows to TB programs, and that funding allocated through the Global Fund is spent efficiently towards the scale-up and impact.           The Partnership Secretariat developed a Global Fund has been a major focus of the Partnership Secretariat's activities. While a lot is going on, in light of limited resources it is critical that the Partnership Secretariat focuses these activities on its comparative advantages and on areas where it can have the biggest impact. This is why the Partnership Secretariat has worked on a GlobalFund engagement paper, which will be presented to Board members. It focuses on the following main areas of work:           • Replenishment of the Global Fund buds/grants.           MAND DISCUSSION POINTS OR DECISON POINTS REQUESTED:           • Recognising the work of the Stop TB Partnership Secretariat's work so far; continuing the engagement which eliobal Fund by leveraging	SUMMARY SHEET			
BACKGROUND (INCLUDING PROBLEM STATEMENT):         In line with the operational Strategy, the Global Fund represents a major focus of the         Partnership Secretariat's advocacy activities, aiming at supporting Global Fund financing and         grant management policies through partner coordination and strengthened community         advocate voices.         Over the last decade, the Global Fund has become the single largest source of external         financing for rational TB programs, currently providing more than four-fifth of international         finding for TB detection and treatment worldwide. The priorities of the Partnership Secretariat         in its Global Fund engagement are therefore that the Global Fund is endowed with the largest         possible commitment of resources; that as much funding as possible from the Global Fund         flows to TB programs; and that funding allocated through the Global Fund is spent efficiently         towards the scale-up and impact.         The Partnership Secretariat developed a Global Fund engagement paper that outlines its key         areas of work, achievements so far, objectives and suggested activities.         SUMMARY/OUTLNE OF THE SESSION:         Over the last year, engagement with the Global Fund has been a major focus of the Partnership         Secretariat's activities. While a lot is going on, in light of limited resources it is critical that the         Partnership Secretariat focuses these activities on its comparative advantages and on areas where         it	Agenda nr. 1.13 – 05	ACHIEVEMENT OF THE GLOBAL PLAN TO STOP TB AND		
In line with the operational Strategy, the Global Fund represents a major focus of the Partnership Secretariat's advocacy activities, aiming at supporting Global Fund financing and grant management policies through partner coordination and strengthened community advocate voices. Over the last decade, the Global Fund has become the single largest source of external financing for national TB programs, currently providing more than four-fifth of international funding for TB detection and treatment worldwide. The priorities of the Partnership Secretariat in its Global Fund engagement are therefore that the Global Fund is endowed with the largest possible commitment of resources; that as much funding as possible from the Global Fund flows to TB programs; and that funding allocated through the Global Fund is spent efficiently towards the scale-up and impact. The Partnership Secretariat developed a Global Fund engagement paper that outlines its key areas of work, achievements so far, objectives and suggested activities. SUMMARY/OUTLINE OF THE SESSION: Over the last year, engagement with the Global Fund has been a major focus of the Partnership Secretariat's activities. While a lot is going on, in light of limited resources it is critical that the Partnership Secretariat docuses these activities on its comparative advantages and on areas where it can have the biggest impact. This is why the Partnership Secretariat has worked on a Global Fund engagement paper, which will be presented to Board members. It focuses on the following main areas of work:    Replenishment of the Global Fund spectretor    Support on the efficient use of available Global Fund funds/grants. MIOR DISCUSION POINTS OR DECISION POINTS REQUESTED:    Recognising the work of the Stop TB Partnership Secretariat's work so far; continuing th engagement with the Global Fund by leveraging the full capacity of partners and acting on matters of urgency    Discussion amongst and perspectives from Board members on scale-up needs at country- level    Subjor Cl.e	IS THIS SESSION FOR: INFOR	MATION X DISCUSSION
