### **2. Background & Context**

- The 2025 Board meeting will represent an important moment for Stop TB partnership due to the very high-level participation and crucial discussions for future work and TB response
- The 2026 Board meeting – expected in Q3 2026 – will also be extremely important as we expect the global health and development landscape to continue to change over the next year. Changes will include many countries signing and beginning implementation of new global health compacts with the USG, the GF will be working with their new funding envelope, mobilization around the Accra Reset, etc.
- Given expectations of the changes, it will be very important to be hosted by one of the financing partners on the Board
