

PROCUREMENT AND INVENTORY MANAGEMENT

Worksheet (W3:M3)

EXERCISE 1: FORECASTING (W3:M3)

Instructions calculation #3:

- Time period of order = Quarterly
- Number of Xpert MTB/RIF Ultra tests site performs per day = 12
- The lab works 21 days a month
- The lab uses 0.0015L bleach /test

Quarterly Supply requirements for Xpert MTB/RIF testing							
Laboratory Regional reference laboratory							
Region Western Region				Supply Quarter 3			
District Urban				Year 2016			
Total tests performed in previous quarter, including failed tests (A)							
Items	Quantity needed per test (B)	Stock for one month (C) = (A/3)*B	Stock for quarter with 1 month buffer (D)= C*4	Stock on hand (E)	Calculated request (F) = D-E	Order unit (G)	Actual order (H) = F/G and round up
Sputum container				250		100 pack	
Xpert MTB/RIF				175		50 kit	
Concentrated bleach (L)				3L		1L bottle
