

**Exit strategy or transition strategy**

- Partners could be influenced on a moving on decision by the following issues:
  - Global/national context
  - Local context
  - Within the partnership project
  - Within the partnership
  - Within individual partner organizations
- Partners should deal with the process being:
  - Inclusive
  - Transparent
  - Clear
  - Patient
- Most important is having a plan and manage it well!
- Results could be:
  - Closure of the partnership
  - A different type of partnership or another collaborative arrangement (this could happen more than once in the life of a partnership!)
- Good practices and lessons learned should be shared
